Dear Celine Dion,

We are a group of students who talked about your journey in our summer review in english class. We learnt a lot about the "stiff person syndrome" in your inspiring documentary. We saw what you experience on a daily basis. Besides, we admire your strength. Moreover, we look up to the way you keep fighting. In addition, we admire how you focus on your goals, and the way you keep your spirit high. Nevertheless, we want to let you know that you shouldn't blame yourself for cancelling the shows. As fans, we know that your heart is in the right place, and that is not your fault. Despite what you're going through, seeing you at the opening of the Olympics left us stunned. We didn't think we would see you perform so soon and it was a wonderful surprise. It was truly moving to see you perform that day, it brought us back to our childhood given that we grew up with your songs. Last but not least, one of our favorite song is, since we're actually French, "J'irais si tu irais". It brings back so many memories of us dancing with our loved ones. We will always support you!

Best wishes,
and with a little French touch: "Bisous"!
