Dear Celine,

We are french students in Descartes high school near Lyon and we got the chance to read articles about you and watch some extracts of your documentary in our english class, that's why we wanted to tell you how thrilled we were to see you performing again. As french fans, we were astonished to see you appear at the top of the Eiffel Tower during the opening ceremony of the Olympics. You looked gorgeous and dazzling in your Dior dress.

Besides, learning about you enabled us to discover the SPS (Stiff Person Syndrom) which we had no clue about. For instance, the fact that it affects your whole body, muscles and vocal cords really shocked us and we sympathize because it must be really difficult and tough to live with it in your everyday life.

Knowing all of this, we were really impressed that you still stayed on tour for a while and sang before revealing your illness. It must be really challenging for you. We would like to know if the documentary was more beneficial or if it had more negative impacts.

We send you, from France, our best wishes and support, and we hope you'll get well soon.

We are looking forward to seeing you on tour

Yours sincerely,

Elliott, Sara, Daphnée and Anna
